

About Thapovan

Thapovan Info Systems, Inc is an IT consulting and offshore software development company that was started in 2002. Thapovan offers a wide variety of software services and is now getting into the world of KPO. We have worked on a wide spectrum of projects, from mobile to mainframe, social networking to secure financial applications, client server to the cloud.

Thapovan specializes in providing end to end e-business solutions in the Mobile-Cloud platform. We are adept at following Agile Scrum as well as the conventional Waterfall development.

With Thapovan, you can leverage the flexibility and adaptability of a small organization as well as the experience and expertise of a very senior management team. We have talented young professionals who are skilled and committed, with a management team that has extensive experience and expertise in executing large offshore projects for Multi National Corporations.

Thapovan strives to ensure a high degree of professionalism and technical competence in providing services to our clients. Maintaining the highest standards of ethics in business conduct is part of our core values. Client satisfaction is our most important business objective and we rate our success based on our client satisfaction.
